70TH ANNIVERSARY
HERITAGE
LIMITED EDITION

SPECIFICATIONS

FREQUENCY RESPONSE (+/- 4 dB)	51Hz - 17kHz +/- 4dB
SENSITIVITY	105dB @ 2.83V / 1m
POWER HANDLING	100 watts max continuous (400W peak)
MAXIMUM SPL	121dB
NOMINAL IMPEDANCE	8 ohms
ENCLOSURE TYPE	Fully horn-loaded
CROSSOVER FREQUENCY	HF: 4500Hz MF: 400Hz
TWEETER	K-77-D 1" (2.54cm) Phenolic diaphragm compression driver
HIGH FREQUENCY HORN	Exponential
MIDRANGE	K-55-X 2" (5.08cm) Phenolic diaphragm compression driver
MID-FREQUENCY HORN	Exponential
WOOFER	K-33-E 15" (38.1cm) Fiber-composite cone with a folded horn
DIMENSIONS	38.5" (97.79cm) H x 24.25" (61.6cm) W x 25.25" (64.14cm) D
WEIGHT	175.5lbs (79.6kg)
ENCLOSURE MATERIAL	Birch plywood and MDF
FINISH	■ Australian Walnut <small>Note: Australian Walnut, like most exotic hardwoods, will vary dramatically in color and grain pattern. This is due to the normal seasonal or geographical differences where the trees are harvested.</small>

¹ Sensitivity in average listening room

CELEBRATING 70 LEGENDARY YEARS

In celebration of the 70th anniversary of Klipsch, exclusive limited edition La Scala II speakers are being manufactured in exotic Australian Walnut wood veneer. Australian Walnut (also known as Queensland Walnut) is grown in the coastal tablelands of North Queensland, Australia. The species varies in color, but is usually a pale golden hue highly contrasted with darker streaks of chocolate brown, grey, black, or even pink. Australian Walnut grain is moderately close and even and sometimes wavy, resulting in a wide variety of figure effects.

DESIGNED AND MADE IN THE USA USING DOMESTIC AND IMPORTED COMPONENTS

The La Scala II loudspeaker is built to rigid Klipsch standards – the toughest in the industry! Remember great sound? We do, too. The Klipsch La Scala II enclosure is still made in the USA, by proud craftsmen in Hope, Arkansas. Just like Paul W. Klipsch (PWK) intended.

FEATURES

PROFESSIONAL QUALITY SOUND

When the La Scala first launched in 1963, audio pioneer Paul W. Klipsch made it for Arkansas gubernatorial candidate Winthrop Rockefeller to use as a public address speaker. Because some considered it a "portable" and more affordable version of the revolutionary Klipschorn®, the La Scala found success beyond the campaign. The fully horn-loaded, three-way La Scala sounded so good that people wanted to put it in their living rooms.

LIMITED EDITION

The 70th Anniversary La Scala II is limited to a production run of 70 pairs of speakers. Each speaker features a small plaque identifying its numbered sequence in the series and is signed by the craftsman.

NEW NAMEPLATE

Each pair of La Scalas feature vintage "script" style nameplates celebrating the company's 70th anniversary.

NEW VINTAGE GRILLE

A unique silver luster grille cloth complements the beautiful Australian Walnut wood veneer.

BOOK-MATCHED WOOD VENEER

Klipsch only uses book-matched wood veneers for the Heritage series. The veneer leaves are kept in order as they are delicately sliced from the timber and precisely arranged to provide a mirror image at the splice joint – like turning the pages of a book. This gives each speaker an aesthetically appealing and consistent appearance that is treasured more than any other cut of wood veneer.

MATCHED PAIRS

Each pair of Heritage series loudspeakers is grain-matched, using wood veneer panels that come from the same timber. Each cabinet is carefully matched so that each speaker in the pair is practically indistinguishable from the other. The speakers move seamlessly together through the factory, and each finished product is inspected and labeled with sequential serial numbers, ensuring that your Heritage series speaker leaves the factory as a meticulously crafted set.

A LIFETIME INVESTMENT

While each and every component of the La Scala is built to last, Klipsch has always recognized the unique and critical role of a loudspeaker's cabinet in the sound reproduction process. From the craftsmen in Hope, AR to the engineers in Indianapolis, IN, Klipsch has always put an extraordinary emphasis on cabinet design. The La Scala II enclosure is assembled using only the highest grade adhesives and fasteners. This is a speaker you will hand down for generations.
