

Revox speakers True studio sound quality

Revox Elegance G120

The Elegance G120 speakers offer an attractive, slim design and yet an excellent sound, which the discreet appearance does not suggest at first. The proven D'Appolito chassis alignment with a high-class soft-dome tweeter and two bass-midrange chassis for good music and voice reproduction is supported by two additional woofer chassis. This makes the Elegance G120 speaker the ideal compromise between its two siblings from the G speaker series Column and Prestige.
