

FL101

This inwall loudspeaker is flatter and even less visible than all its predecessors. The frame was reduced to just 1 millimeter, yet continues to score high in terms of vibration absorption. The loudspeaker's grill has also been noticeably fine-tuned and almost feels like silk to the touch. The sound is accurate, warm and carries far. A no-bones-about-it speaker.

The FL101 is a real hit. It leaves no space untouched: the corridor, waiting room, kitchen, ... you can even paint it over in your favourite colour.

black grill (option)
