

ELEGIA

Product Data Sheet

Elegia is an audiophile circum-aural closed-back pair of headphones from Focal. The ergonomic design makes them incredibly comfortable and offers excellent sound isolation, making these headphones the ideal solution for long listening sessions. Continuing its headphone development programme, the Focal R&D team has introduced several new innovations, all with incredible audio performance in mind. The full-range 'M'-shape aluminium/magnesium dome speaker driver provides a very high frequency response, which is the basis for Elegia's supremely dynamic sound. In addition, the frameless voice coil, which is lightweight yet incredibly stiff, reproduces the minutest details that adds to the convincing all-round performance. With its incredible tonal balance combined with long-term comfort, the Elegia is a key reference in the high-end closed-back headphones sector.

Key points

- High-end closed-back design for home use and on-the-go
- Exclusive full-range speaker-driver with an 'M'-shape aluminium/magnesium dome (patent pending)
- Incredible tonal balance, which is able to reproduce the subtlest sound details at both very high and very low frequencies
- Excellent performance when connected to a portable audiophile player.
- Very good ambient noise soundproofing
- Comfortable and ergonomic

Type	Circum-aural closed back headphones
Impedance	35 Ohms
Sensitivity	105 dB SPL / 1 mW @ 1 kHz
THD	0.1 % @ 1 kHz / 100 dB SPL
Frequency response	5 Hz-23 kHz
Speaker driver	1.57" (40 mm) 'M'-shape Aluminium/Magnesium dome
Weight	15.4 lbs (430 g)
Cable provided	3.94 feet (1.2 m) asymmetric cable (0.14" - 3.5 mm TRS jack). 0.14" (3.5 mm) to 0.25" (6.35 mm) stereo jack adapter.
Hard-shell carry case provided	10" x 9" x 5" (250 x 240 x 120 mm)
