

AVIDHIFI

SEQUEL™

"Presence and realism that is reach out and touch it real"

Welcome, to true audiophile quality.

The Sequel comes complete with a precision 6.7kg aluminium platter, directly mounted onto our unique inverted bearing system, it's time to finally hear the music.

Sharing the same philosophy as our reference models, The Sequel is true audiophile engineered quality.

Such as our unique sapphire bearing and clamping system which efficiently channels unwanted vibrations away from the record to the chassis. The result is presentation that's dramatically focussed and paints a vividly realistic image of the recording.

Isolating the main chassis is critical to maintaining low colouration. We have employed a tripoint sprung suspension system with an ultra-low frequency. The result is information retrieval and resolution that is out of this world.

The Sequel offers people the chance to experience true audiophile quality vinyl reproduction, that puts the music first.

It's reassuringly an AVID turntable that will put you in the audience.

SPECIFICATIONS	
DRIVE	Twin Belt Drive
SPEEDS	33.3 & 45.0 RPM (Adjustable)
PLATTER MASS	6.7kg
PLATTER MATERIAL	Aluminium
BEARING	Inverted Satinless Steel
THRUST POINT	Tungsten Carbide / Sapphire
SUSPENSION	3 point sprung (V-3.2Hz / L-4.5Hz)
TONEARM FITTING	Pre cut for AVID/SME (Not Included)
ADAPTERS	YES (Available on Request)
MOTOR	24v 140mNm AC Synchronous (Modified)
POWER SUPPLY	Separate DSP Vari-Speed PSU
