

Debut RecordMaster II

Audiophile turntable for Hifi & audio transfer to PC/Mac

MSRP 449 € (incl. VAT)

- **NEW** electronic speed switch on the bottom
- **NEW** switchable line/phono output
- Precision belt drive with synchronous motor
- 8,6" aluminium tonearm
- Steel platter weighing 1,3 kg with a felt mat
- Built in MM phono preamplifier with USB out
- Simultaneously connection with amplifier & PC/Mac
- OM5e moving-magnet cartridge fitted
- Available in 3 high-gloss finishes (piano-black, red or white) and walnut matt

Colour options: 

Speed: 33, 45 (electronic speed change) 78 (manual)
Drive principle: belt drive
Platter: 300mm steel with a felt mat
Speed drift: 33: $\pm 0,60\%$ 45: $\pm 0,50\%$
Wow & flutter: 33: $\pm 0,19\%$ 45: $\pm 0,17\%$
Mains bearing: stainless-steel axle in a brass bearing housing
Tonearm: 8,6", aluminium
Effective arm length: 218,5 mm
Overhang: 18,5mm
Tracking force: 10 - 30mN
A/D conversion: 16bit Delta Sigma
Sampling frequency: up to 48kHz
Output: RCA & USB-B (USB 1.1)
Incl. accessories: 15V DC power supply, dust cover
Power connection: 110/120 or 230/240V - 50/60 Hz
Dimensions: 415 x 118 x 320mm (WxHxD)
Weight: 5,6 kg

Aluminium tonearm, computer connection & 3 speeds!

The first Debut turntable, introduced in the late 1990s, was a revolution for the hi-fi industry. For the first time after the arrival of Compact Disc and the assumed demise of vinyl records, an analogue product re-emerged in the "mass market" – something all music lovers could afford.

The new Debut RecordMaster II has been designed to set new standards in this category for the coming decade – perfectly timed as analogue today is again a respected source, while the demand for good turntables with all speeds is growing fast! It comes with improvements like an increase in platter size and weight to realize even smoother rotation, the overall sound quality is greatly improved. The approved belt drive design offers low noise AC motor with effective motor decoupling (utilising TPE), ultra precision frequency DC-driven AC generator for ultimate speed stability. Ultimate convenience is achieved, because of electronic speed change („Speed Box“) and the possibility of playing 78rpm.

Speed switch on the bottom side

A simple exchange of stylus to OM78 (not included) and a drive belt turnover to larger diameter of pulley is required, that's all!

Because Debut RecordMaster II comes with pre-mounted cartridge and built-in switchable phono preamplifier with USB output, connection to both line-level input of your hifi system and recording of vinyl to PC/Mac easily can be done simultaneously! Debut RecordMaster is offered in high-gloss black, red and walnut matt.
