Audiophile “Plug & Play” wireless turntable with easiest possible vertical set-up and wall-mount option!

A turntable set-up does not need to be complicated like rocket-science, our **VT-E turntable** proves that. This good sounding belt-driven deck offers 2 versions for left- and right-handed users. The fastest possible installation process is made possible, because it comes pre-adjusted out of the box. **No further set-up is needed.** Tracking force and anti-skating are carefully set. The **VT-E turntable** can be positioned on a table or mounted on a wall. For further ease of use, it comes with a phono pre-amplifier and **Bluetooth transmitter**. So even a wireless solution is possible! You can use both Bluetooth and RCA output at the same time. VT-E BT, the **world’s first wireless turntable**, is available in black, red or white high gloss colour.
