L9H SERIES TRICHROMA LASER TV

DISCOVER A NEW
EXPANSE OF COLOUR

Meet the L9H TriChroma Laser TV

Inspired by a world of incredible colour at a scale that makes everything feel brand new. The 3000 Lumen ultra-short throw projection TV features the TriChroma laser engine to reach 107% of the BT.2020 Colour space. L9H series is upgraded to support Dolby Vision, bringing incredibly vivid details to life. Premium features like Dolby Atmos® High-Speed HDMI, Filmmaker Mode, and a perfectly paired screen make the L9H the ultimate home entertainment upgrade.

- Red + Green + Blue Lasers
- 107% BT.2020 colour space
- 3000 Lumens Brightness
- 4K Resolution, 60Hz Refresh
- Dolby Vision
- 40W Dolby Atmos® Sound
- High-Speed HDMI with eARC
- WiSA Ready
- Google TV

Premium X-FUSION™ Laser Light Source

The triple colour laser light source generates three original colours (Red, Blue and Green) directly without a spinning colour wheel. Wider Colour Gamut and continuous improvements in the Trichroma laser engine and screen create images what the human eyes truly see in nature.

Big Screen Experience

Get that childlike grin of excitement as you re-experience all your favorites at a scale that makes everything feel brand new. The massive 100-inch Laser TV display uses Ambient Light Rejection technology to produce an incredibly bright picture that's enjoyable in any viewing environment, light or dark. This is your true living room projection TV to take sports, streaming, and gaming to the next level.

A Bright Picture in Any Room

3000 Lumens. That's right, the L9H shines with brilliance so all your 4K HDR content hits those shimmering highlights, vibrant Colours, and voluminous blacks that make everything pop off the screen. And with incredible brightness uniformity across the entire projection — no vignetting, no falloff — L9H is a shining wall of light.

Powerful Sound

With built-in 40W Dolby Atmos sound, L9H is a big sound-stage upgrade over those tinny speakers in your last TV. Get clear speech, thrilling highs, and booming lows without having to invest in any extra gear. For the true audiophiles, high-speed HDMI with eARC allows for pass-thru of high-bitrate audio to your surround sound system.

Smooth Motion

MEMC technology gives the L9H microsecond-level processor response and a motion rate 10 times faster than OLED so you never miss a moment of the action. Fast-moving images are smooth and crystal clear – so whether its sports, games, or action films the L9H keeps pace.

Long Lifespan

X-Fusion™ laser light technology provides up to 25,000+ hours of entertainment without the need for replacing a bulb.

DLP Technology by Texas Instruments

L9H uses the same DLP projection technology used in 9 out of 10 cinemas worldwide. With extreme clarity and depth of colour, everything you watch looks fresh from the movie studio.

Dolby Vision

Whether you want to catch up on the latest content from Prime Video, or YouTube, or simply enjoy some time with your favorite immersive games. Laser TV delivers original content with better detail in the shadows and brighter highlights

WiSA Ready

Integrate Laser TV with your wireless multi-channel surround sound system – the L9H is WiSA ready.

Smart Home Ready

Built-in WiFi, Bluetooth, Google Assistant, Works with Alexa, and Control4 compatible, the L9H can be integrated with your smart home ecosystem to create automations to your heart's content.

Eye Safety

With a proximity sensor to turn off the laser when something gets too close, the L9H takes eye safety seriously. As a bonus it's a great feature for deterring little kids from touching the laser console. Of course, you can always turn Eye Safety off.

Filmmaker Mode

Filmmaker Mode gives you the choice to automatically adjust picture settings to ensure you're seeing content exactly the way the moviemakers intended. Studio-grade video calibration in just a couple clicks of the remote.

Google TV

Google TV makes it easier to get more from your TV. Choose from 400,000+ movies and shows from across streaming services. Ask Google to control your TV, get recommendations of what to watch, dim the lights, and more with your voice.
